

Coastal Health Alliance
Report for SBVA
December 2, 2017

Staffing

Gabriel Klapman MD accepted our offer and will start seeing patients mid January. He has training and experience in Integrative Medicine. He will see patients two days a week in PRS and one day in Bolinas. He has rented a home in San Anselmo, and expects his first child in March.

We are keeping our fingers crossed that our current political leadership allows us to take care of patients in the way that we do.

We have requested Dennis Rodoni's insights on a Stinson building upgrade strategy. And are awaiting a response from him.

Our Dentist Dr. Ramirez is vetting a Virtual Dental Home pilot with University of Pacific for service area schools, K-8.

And the Bay Area Resource Council is requesting CHA sub-contract for the county funded school-based Prevention Early Intervention counselor for the Shoreline School District.

Contact Silvana Castro for help with getting insured. There is an enrollment period that ends on Jan 31, 2018, 415. 787-1104
