Dear Chris et al,

Kathy Bustamante and I would like to thank you all for the opportunity to address the SBVA Meeting on Saturday, December 3rd and bring to the attention of the assembled our real concerns about the presence and prevalence of rodenticides in our communities. As was mentioned, there is considerable debate and concern over these poisons at the national, state and local levels and we appreciate your attention and hopefully your participation in the effort to divorce 'ourselves' from the use of, and reliance upon, these poisons.

Please feel free to contact us at any time should you want to explore this matter further or offer suggestions for additional educational presentations. In the meantime, we would encourage everyone to express their appreciation to the management of the various stores you frequent for their willingness to voluntarily forgo the sale of rodenticides. They deserve our appreciation AND our patronage. Thank You.

Best to all in Stinson Beach.

Sincerely, Stockton Buck
