Gentlemen:

On behalf of the residents of Stinson Beach, the Stinson Beach Village Association Board thanks you for of your collective handling of traffic management issues this summer. Although it isn't possible to use comparative metrics, we feel that the situation was better than in preceding summers. We appreciate that each of you had a role in assigning personnel, in being present at the right times, and in coordinating effective traffic management procedures.

Given our geography and roadway configuration, Stinson Beach will always face traffic challenges on busy weekends and holidays. However, your agencies, through cooperative, coordinated efforts, all summer long, minimized traffic problems and the resultant frustration of visitors and residents alike.

Best regards,

Susan Banta, Lawrence Crutcher, David Goldstein, Terry Gordon, Mike Matthews, Sam Matthews, Christine Ruppe
