Dear Terry,

We, the directors of the Stinson Beach Village Association, do not want your retirement both as a former board member and the chair person of our Traffic Committee to go unnoticed. Your constructive activities over the years to acknowledge safety issues and to suggest solutions have been truly remarkable. The evidence lies in the results, with more effective policing and signage. The traffic even appears to flow somewhat better on holidays and weekends. We, and the community at large, owe you an enormous debt of gratitude for your labors.

We should not fail to observe, as well, Donna's tireless efforts at beach clean-up. It is citizens like the two of you who make Stinson Beach such a special place.

With thanks and best regards,
