Report to the SB Village Assoc. from the SB Fire Protection District/SB Volunteer Fire Dept./SB Disaster Council

- On October 21st, the Stinson Beach Volunteer Fire Dept. in conjunction with its affiliate, the Stinson Beach Disaster Council, offered to the entire community a free two-hour hands-on first aid training workshop led by professional paramedics. There were 22 attendees. It was especially pleasing to see some newer residents as well as a broad range of adult ages participating.

- On Tuesday, November 28th, at 6:30 PM, at the Community Center, the Stinson Beach Volunteer Fire Dept. along with the Stinson Beach Disaster Council will be hosting a special presentation to help households in Stinson Beach get better prepared for the different types of disaster scenarios that could occur here. Those attending also will be informed of the role of the SB Disaster Council in preparing for and

responding to local disasters. Our goal is for each household to grasp how crucial self-responsibility and household disaster preparedness is. We want the SB Disaster Council to be viewed as a potential helping hand and not as a substitute for household disaster preparedness. We realize the topic of potential disasters is scary for everyone, so Fire Chief Kenny Stevens has promised gourmet cookies for all who attend.

We kindly seek the Village Association's help in publicizing this upcoming disaster preparedness presentation by including the attached flier when the SBVA's minutes are distributed.
